

❖ Service Dashboards

Current Analysis Service Dashboards provide links to all the most recently published analysis in a single convenient view.

❖ Benefits

- Stay informed of significant events within your market as soon as they happen.
- Understand how these events specifically impact your business.
- Gain awareness of key competitors and their relative positions.

The screenshot shows a complex dashboard with multiple sections. Callout boxes point to various features:

- Find contact info for all members of the Analyst Team**: Points to a list of analyst profiles on the left side of the dashboard.
- Navigate quickly to individual Market Dashboards**: Points to a central area with various report thumbnails.
- Read all recent Intelligence Reports**: Points to a section of the dashboard displaying recent reports.
- Analyst Perspective section features recent analysis on key issues**: Points to a section on the right side of the dashboard.
- Links to recently published Market Trends Advisories**: Points to a section on the right side of the dashboard.
- Links to most recently updated Company Assessments**: Points to a section on the right side of the dashboard.
- Resource section provides links to Webinar replays**: Points to a section on the right side of the dashboard.
- Links to most recently updated Product, Solution, and Portfolio Assessments**: Points to a section on the right side of the dashboard.
