

Current Analysis Analyst Profile

Andrew Braunberg

Research Director, Enterprise Networks and Security

abraunberg@currentanalysis.com

Phone: +1 703 788 3781

Andrew has been a technology analyst with Current Analysis for more than eight years. As Research Director for the Business Technology and Software group at Current Analysis, Andrew manages the Enterprise Security, Data Center Infrastructure, and Enterprise Network Systems coverage. As the lead analyst for Enterprise Security coverage, Andrew focuses on the market and technology dynamics that are transforming the industry. These include virtualization, de-perimeterization, SaaS, the embedding of security into the broader IT fabric, and a shift to data centric security.

Prior to coming to Current Analysis, Andrew was the founder and editor of Data Mining News, a business to business newsletter focused on predictive analytic technology. Previous to that, Andrew was a journalist covering information technology in the defense and telecommunications sectors. Andrew holds a M.A. from George Washington University in Science, Technology and Public Policy and a B.S. in Engineering Physics from Rensselaer Polytechnic Institute.
